

Neem Soap

- **Healthy Skin**

Healthy skin is neither too oily nor too dry. The former blocks the pores and is responsible for skin infections like acne and blackheads; which finally result in ugly scars. As for dry skin, it loses elasticity and gets wrinkled earlier; and if cracked too, it is more susceptible to infections. Inadequate or improper hydration causes skin to lose its glow. Moreover, as we age, the basic health of our skin takes a toll. The outermost layer of the skin thins out; newer cells develop slowly; dead cells accumulate. This combined with the years of sun-exposure make our skin dull; patchy and pigmented. To add to this, poor blood circulation means poor supply of nutrients to the cells; also resulting in poor health of the skin

- **Benefits of Neem for the Skin**

Neem is the miracle herb that offer amazing health benefits for skin and in general for overall health of the body. The scientific name of neem is “Azadirachta Indica”. Neem is used in many forms for skin application i.e. neem water, neem honey, neem soap and neem oil etc. The most convenient and common way to use neem is to make Herbal Neem Soap. Neem is anti-septic, anti-bacterial, anti-inflammatory, analgesic, anti-fungal and much more. All these properties help in healing many skin issues, diseases, and disorders.
